HIPAA – RELEASE OF INFORMATION AUTHORIZATION FORM | DOB:

HIPAA - RELEASE OF INFORMATION AUTHORIZATION FORM

In compliance with federal and state law, the release of information for any person 18 years or older (including the information regarding a spouse or adult child), **must first be authorized**. Authorization includes the signature of the individual authorizing the release of their information. Information **will not be available** to anyone other than the covered patient (i.e. a member, a spouse, or any dependent age 18 or older) without first having this Release of Information Authorization on file. For example, if a subscriber calls about the status for a claim on a 19-year old dependent, that information will not be given to the subscriber without the written consent of the dependent. The same situation holds true for spouse-to-spouse information. However, parents do have a right to information on children under the age of 18 without the childs consent.
